## **ACROSS TIME: *LOVE ETERNAL***

**BY O.J.HARP, III**

*An Adventure with Beginnings in Ancient Africa*

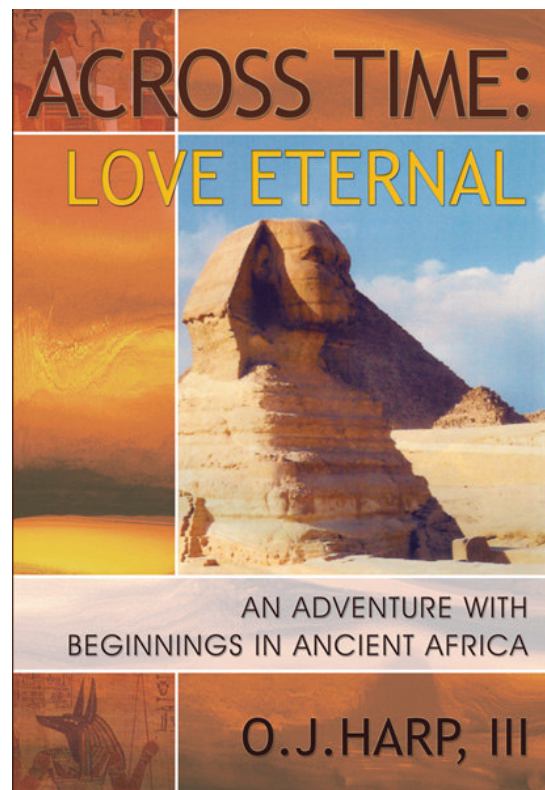

**ACROSS TIME: *LOVE ETERNAL*** - **An Adventure with Beginnings in Ancient Africa** is a novel filled with mysticism, magic, future technology, and the history and lore of ancient Egypt, with its ancient spells, Pharaohs and pyramids. It is a science fiction adventure of epic proportions, with multiethnic characters. The story grapples with the historical implications of African slavery, the pathology of the N-word, the destructiveness of gang violence, the importance of the African-American Kwanzaa celebration, and the ethnicity of the Pharaohs. It is a love story, which lasts across the very depths of time.

The story begins in sub-Saharan Africa, 110 million B.C., with prehistoric animals and quickly moves on to 11000 B.C., a time when the Great Sphinx was carved by the Anu, a mysterious Black race of people with occult superpowers. With an ancient miraculous device, they travel from the dawn of civilization to the present time to recover stolen ancient Egyptian (Kemetite) artifacts. And they intermingle with present day people and mischievous school-aged kids.

**O. J. Harp, III, Ph.D.** is a Clinical Psychologist, lecturer, and author. While working in the District of Columbia Public Schools in the area of special education, he found the inspiration to write *Across Time: Love Eternal*.
